# Station logo update procedure

For the JRDAB-04 C_V.4.xx module, the database of the radio stations logos is stored on a USB flash drive in the JLDB_001 directory that is connected to the device.
Station Logo base is specially prepared by the manufacturer and the name of the JLDB_001 directory should not be changed, as well as the contents of the directory should not be modified or changed.
The process of updating the station logo database is described below

1. Download the zipped file named: logo-vw XX.XX.XXXX.rar.
2. Unpack the file named: logo-vw XX.XX.XXXX.rar.
3. Copy the directory named: JLDB_001 with all its contents to the USB drive.

*The database of radio stations is updated whenever possible.*
*To check what's new, see the release date of the logo-vw xx.xx.xxxx.rar file.*

**Technical parameters of the USB flash drive:**

| | |
|---|---|
| Maximum current consumption: | 0.5A |
| Recommended capacity: | up to 32GB |
| File System: | FAT32 |
| USB standard: | 2.0 |
| We recommend that the data carrier only contains a directory with the logos of radio stations. | |
